

Netadmin Systems joins TM Forum to drive innovation in telecom and fiber industry

Netadmin Systems, a leading software provider specializing in solutions for fiber and telecom operators, is proud to announce its new membership with TM Forum, the globally recognized industry association committed to driving digital transformation across the telecommunications sector.

Netadmin Systems has joined TM Forum with the aim of adopting and implementing the organization's established terminology and standards. This collaboration will enable Netadmin to align with TM Forum's methodologies and, as a result, accelerate the company's innovation roadmap. This alignment will ensure that Netadmin's offerings continue to cater to the evolving needs of operators in the digital age.

As a member, Netadmin Systems will actively engage in various industry working groups, collaborative projects, and events, including the influential Digital Transformation World (DTW). This involvement positions Netadmin at the heart of industry discussions, allowing the company to contribute to and benefit from the collective expertise of telecom operators, technology providers, and thought leaders.

Netadmin's engagement with TM Forum is a testament to the company's commitment to staying ahead of the latest industry trends and contributing to thought leadership within the telecom community. This strategic alliance empowers Netadmin Systems to drive innovative solutions that enable fiber and telecom operators to excel in an increasingly digital ecosystem.

TM Forum is a crucial hub for fiber and telecommunications organizations to connect, innovate, and address industry challenges by adopting best practices, standards, and frameworks. Netadmin Systems' membership underscores its dedication to delivering purpose-built solutions that support operators in efficiently building, operating, and monetizing their networks. Ulf Lindberg expressed excitement over the appointment of Fredrik Holmberg as the new CEO;

— We are excited to join TM Forum and collaborate with the industry's best minds.

Our involvement with TM Forum aligns perfectly with our mission to transform the fiber industry through innovative software solutions. By enabling our customers' digital transformation, we bring to life their vision for the best digital experiences for people and businesses.

Henrik Thurén, VP R&D, Netadmin.

Netadmin Systems' commitment to TM Forum's Open Digital Architecture (ODA) will further enhance the company's capabilities, ensuring they continue to offer cutting-edge solutions tailored to the specific needs of fiber and telecom operators. This partnership marks a significant milestone for Netadmin Systems, reinforcing its role as a key player in the journey towards a more interconnected and digitally driven world.

— Netadmin is transforming to adopt the terminology and standards that TM Forum has defined. As part of this journey, the company has set a clear goal to facilitate interoperability by conforming to relevant Open APIs in our solutions. We are confident that aligning with TM Forum will add value to our customers.

Fredrik Holmberg, CEO, Netadmin Systems.

About Netadmin

Netadmin Systems is a software company that supplies essential software for fiber and telecom operators, enabling digital services and experiences for individuals, businesses, and communities. As a software company, Netadmin is dedicated to creating purpose-built solutions based on their product Netadmin, which supports operators in building, operating, and monetizing their networks.

About TM Forum

TM Forum is an association of over 800 member companies generating US\$2 trillion in revenue and serving five billion customers across 111 countries. A global alliance of telco and tech companies, TM Forum is leading the industry in defining the building blocks for new operating models, impactful new partnerships, and advanced software platforms. TM Forum helps its members unlock the value of data to create nearly endless opportunities for players across the communications ecosystem. At DTW23 – Ignite, Accelerate and Collaboration events, TM Forum provides a platform for industry change-makers to share groundbreaking innovation, market developments, product launches and business transformation journeys. We are the only industry body to count the world's top 10 CSPs and all the key hyperscalers as active, strategic members. TM Forum and its members are on a mission to reinvent the telco industry as a vibrant part of the digital landscape – and a driving force in shaping its future.
